

## Mt. Cho Oyu Questionnaire

- 1) What is your name and address and email address?
- 2) How did you first learn about red pandas? (your teacher, a friend, a book?)

Now let's test your red panda knowledge (check out our [fun facts](#) page if you get stuck!).

- 3) Can you name one country where red pandas are found in the wild?
- 4) Why are red pandas the "original" pandas (instead of giant pandas)?
- 5) What is the Nepalese name for red pandas, and what does it mean?
- 6) Why are red pandas sometimes called "firefoxes?"
- 7) How does a red panda's red fur help them hide from predators?
- 8) Do red pandas have claws?
- 9) Red pandas and giant pandas are both famous for eating a particular plant. In the wild, a red panda can eat up to 200,000 of this plant's leaves every day. What plant is it?
- 10) Are red pandas more closely related to giant pandas or raccoons?
