

Instructions:

Cut out the hat template. Roll so that the entire edge of both sides A and B meet, then attach end-to-end with tape or staples. Grab a piece of string or ribbon. Place on the interior of the cone where the half-circle tabs are. Fold the tabs over into the inside of the hat and tape or staple over the string so that it's secure. Repeat on the other side so that both tabs hold the string in place. Tie it under your chin – you now have a party hat!
